Senate began debate on Ferry's Education Bill this evening.

THE TIRO NACIONAL
The legality of the volunteer movement in this city, under the head of Tiro Nacional, is as admitted as its proposed objects are laudatory, but it is essential to the well-being of the State that every detail connected with a military organization of such rapid and portenteous growth should be well studied, lest its success should prove our ruin, and its members, procuring instruction from revolt, give too free a scope to the deliberate object of its formation, and disown the very authority of the Provincial Government, of which, through some blunder, it seems it is independent.
We hold that it is inconsistent with good government to form a military corps that depends upon a committee of management for its orders, when the Governor of the province should alone command; and it is both practically and socially inconvenient that an armed force of from 3 to 5000 of our fellow-citizens should be under the direct authority of Dr. Delfin Huergo or Dr. Juan Agustin Garcia, or any other personages constituting the committee, without even the obligation of presenting arms to the Governor or saluting one of his Ministers.
It is all very well to admire the patriotism of Porteño youth, and praise the spirit that calls up regiments at an hour's warning to defend the province, but in no other country under the sun does political opinion and the colour of party undergo so frequent and rapid changes as in this city, and we see no guarantee that the very volunteers of to-day who are such steadfast allies of the Governor of the Province, may not to-morrow be his armed and arrayed opponents, and it is to provide against this contingent danger that these remarks are thrown out.
However praiseworthy may be the Tiro Nacional movement it must always be remembered that it is of all others the one most calculated to breed trouble and, if not specially guarded, to blend with dissolving tendencies that result in national demoralization. A very strong constitutional government can not only afford to support its armed volunteers but even to foster the movement. In England the volunteers have risen within a generation to be a strong, compact, national force rivalling in numbers some of the largest armies on continental Europe; but even in free and enlightened England the volunteer force is subject to the Government and the Crown, and no independent committee is allowed to interpose its authority between the citizen volunteer regiments and the executive of the country.
The volunteer movement in this Republic is as yet but in its infancy, a period when the correction of any defects in its organization is the easiest. To create Pretorian guards independent of our Provincial Government is as inconsistent with our institutions as it is dangerous to the very government that allows it, and to our view the Government should be as careful in the proper regulations for the Tiro Nacional as it is with the police of the city or the Guardia Provincial for the camp and prisons.
In the many weak points of organisation the weakest of all is the utterin dependence of the regiments, whose commanders know no authority save the committee of management and possibly only bow to that authority so long as the politics of the committee harmonize with those of the officers and men. To our view the Governor of the Province should have the nomination of every Tiro Nacional officer, and the whole body should be under the direction of a Provincial Department that would secure to the Government the full co-operation of the force in moments of need when politics may assume a very different line to that of to-day.
If the province of Buenos Ayres is to undergo a process of 'militarization' to which this Tiro Nacional business points, let us at least follow the example of the British Government and have a law passed organising the force on a proper basis; its present formation could hardly be more objectionable. It has started with predictions and attempts to fulfill them; possibly later on it will not be satisfied with the mere dignity of a prophet, but may claim an authority that would in the end compromise our Republican institutions. Doctors Huergo and Garcia must surrender to us the freest discussion of the whole question. The Tiro Nacional has in it much that is good and laudatory, but it has also very great defects—defects which ere long may bring every regiment into collision with our institutions, and to check which we feel it a duty to interpose our opinion, however feeble.

The Galicia's Mails.
London, 30th Jan.
Lisbon, 3rd Feb.
The chief topic in all the London papers is the distress in Ireland, which political agitators are daily making greater efforts to turn to their own purposes. In spite of the large sums unceasingly sent to those in want, every day deaths from cold and hunger are reported.
It is estimated that the Separatist party will send over 30 members to Parliament at the coming elections.
Mr. Bourke, while addressing his constituents lately, deplored the continued increase in the armament of the European Powers, as it is certain to produce a catastrophe. English commerce, industry and agriculture have suffered fearfully from this cause. The Hon. gentleman entered into a justification of the extraordinary measures which Great Britain had taken to prevent Russian preponderance in the Balkans.
It is reported from St. Petersburg that the Czar, on the anniversary of his coronation, will decree great liberal concessions to Poland. The *Golos* says that steps have already been taken to declare Poland an independent kingdom.
The police of St. Petersburg have unearthed a Nihilist printing-office: the printers at work fired revolvers and wounded a commissary.
The Russian newspapers call for a Muscovite alliance with Persia, to counteract British influence in Central Asia.
Two North Americans have been arrested in Naples, charged with having stolen 83,000 francs from a Russian naval officer in Brussells The Belgian Government offered 10,000 frcs. for their arrest, and the Naples police have gained the reward.
The Italian Government has extended the forced currency of the notes of the Bank till 31st June, subject to the conditions laid down for all the banks to make preparations for the cessation of forced currency.
It is expected that the 26 new Senators recently named by the King will give the Government a majority in the Upper House.
Senor Vasquez Queipo made a splendid speech in the Spanish Cortes on the abolition of slavery in Cuba: 97,293,000 pats gold is the sum required to indemnify the owners.
The increase of the German army has provoked great comment in France, owing to the preamble of the Bill before the Reichsrath setting forth a comparison of the strength of the German army with that of the Russian and French forces, while not a word is said about Austria.
The *Avenir Militaire* says, that with the contemplated increase, Germany will have nine regiments of infantry (about a corps d'armeé) more than France. The latter power is superior in field artillery to Germany, but very inferior in 'materiel' and cavalry. In England and Russia alarm is also expressed at the increase in Germany's forces. Even in Germany itself the people object to it, and the *Frankfort Gazette* says there will be a strong opposition to such needless sacrifices when no patriotic necessity calls for them.
Count Moltke, on being asked to interfere to prevent the contemplated increase, said:—"we all wish to see the army reduced, but it cannot be done till the fact that war is an equal calamity for conqueror and conquered be admitted by all countries. This conviction will come from a higher moral and religious education, but it will take some centuries to develop, and none of us can expect to see it."
Sir Garnet Wolseley has returned to Natal. Major General Sir Henry Clifford has been appointed to the military command of the Transvaal.
A detachment of troops and a body of police have been despatched to capture the Nagas who made the raids in Cachar, Bengal, upon the tea plantation at Balaikun, on the 27th inst.
It is announced that a universal Exhibition of Art and Manufacturing Products will be opened on May 1st next in the Palais du Midi, in Brussels.
Speaking yesterday afternoon, in Dublin Castle, at a meeting of her Irish Relief Committee, the Duchess of Marlborough said it appeared that even that 'purest charity' was not to 'escape Mr Parnell's misrepresentations.' But her Grace was not surprised that 'he who slandered our gracious Queen, and dared to say her Majesty's purse was shut while her people were starving, should give utterance to the unjust assertions about me (the Duchess), to the effect that the Government had suggested my efforts.'
Mr W. H. Smith, as First Lord of the Admiralty, last night at a banquet of the Haberdashers' Company replied to a toast to the navy. The right honourable gentleman spoke highly of our naval force, and remarked that science was peace, inasmuch as scientific improvements in our naval armaments and weapons had made them so tremendous and so terrible in their effects that nations would hesitate before they involved themselves in war.
The members for King's Lynn met their constituents yesterday, Mr. Bourke dealt especially with the question of free trade, and exposed the fallacies of protection and so-called reciprocity. Lord Claud Hamilton pointed out that small farms in Ireland were not successful, and that tenants on the largest estates were the most comfortable and contented cultivators in the country.
The deaths are announced of Sir William Erle, formerly Lord Chief Justice of the Common Pleas; Mr. Locke, Q.C. M.P., who sat for Southwark since 1875; Mr. Edward M. Barry, R.A., professor of architecture; Dr. Lockhart Clarke, F.R.S; and Mr. A. Henniker, Q.C.
In consequence of the somewhat firmer tendency of the money market, Consols receded ⅛ per cent. yesterday, to 98⅛ ⅜. English Railway Stocks, however, were in request, the chief rise—about 2 per cent.—being in London, Chatham, and Dover, and North Staffordshire. An advance occurred in some of the foreign bonds, including Austrian, Mexican, and Russian, while Italian, Peruvian, and Turkish exhibited dulness. The 'proportion' in the Bank return was ⅞ higher, at 47⅝ per cent., but £156,000 in gold was withdrawn, chiefly for South America.

(*Our own Correspondent.*)
I notice in your issue of the 19th inst. in your Editor's Table, that you have not received any communication from me lately. I wrote to you last Monday a very lengthy letter which I am sorry was mislaid. I posted it myself at the Telegrafo Maritimo Postoffice branch office in the hands of Mr Buela's eldest son, and I do not conceive how it can have been mislaid here. It contained a lengthy report about 'old covies' and very old things about the first English residents in this country after its independence. I shall endeavour on some future day, when in the humour of recording things of the long past, to give you another report.
In the meantime let us busy ourselves with the present day's chronicle.
Since our lamented old friend O'Neil's death, about whom I mentioned some details of his past life in my last, we have had another loss in the community, the death of Mr Robert Wilson, lately coal merchant of this city, in very affluent circumstances, but who suffered very much in his fortune in these bad times. He left a numerous family in not very good circumstances, I am afraid. His relict belongs to the family of Dr Canstat. At the end of this month or commencement of next, the widow of Mr John Turner and family are expected here, I presume to settle down. Mr Campbell, of the house of Barbour Campbell & Co, is down here, and I hear Mr Sanders is to be definitively put in charge of the house in consequence of the death in England of the very much lamented Mr. Turner aforesaid.
Notwithstanding the contradictory reports about the beauty of the Cuñapiru gold mines, it would appear that everything is going on well out there, and a report has been lately started to the effect that a very important house in Havre or Paris has given instructions to buy up all the shares that may be offering in the market, which, if true, is a very good sign indeed. I only hope that it may turn out a better business for the French company than it did in Bankart's time, when not a few were victimized with rich expectations never to be realized, amongst which your obedient servant. Some of my machinery is still laying on the shores of Salto, waiting to be carried to Cuñapiru gold diggings, and may it wait long enough to surprise future generation on the magnitude of our present enterprise. It will probably be taken to some museum a couple of thousand years hence, as some magnificent specimens of ancient machinery lately discovered on the shores of the populous capital of a future Empire. I am only sorry I shall not be able to have a peep at the wondrous discovery in those future days, and have a chuckle at the idea of seeing how my money contributed towards giving old antiquarians something to do.
I mentioned in my last letter the arrival of our worthy friend Mr Tuson and his brother, who seems to be a professed artist in painting. Mr Tuson, the engineer, is, no doubt, come out to see how his old scheme prospers in the Chambers, and probably he will try and push it forward, notwithstanding the other plan of making a mole and port of discharge in the Western extremity of the city, which is to be made with French capital, if they succeed in securing shares enough in Paris. Mr Tuson's scheme is of a far greater magnitude, and if it eventually be carried out, our port may well be considered the emporium of the Plate as a depot. But, just like it happens in your city, the interests that are opposed to great port enterprises are influential, and thwart these much desired schemes from being turned into realities. I have had a chance of looking at Mr Tuson's, the artist's, two paintings on Roman ancient customs: the 'Struggle of the Gladiators' in the Coliseum, and the 'Grand Corso Chariot Races.' Both are magnificent subjects, full of interest as ancient record, correctness of detail, as far as I can think, and masterly painting in my opinion. Specially the chariot races as of a more sympathetic subject to our tastes, I admire the most. The furious speed and the splendid manner in which the horses are brought out, the excitement of the audience, the beautiful Italian sky, the 'tout ensemble' ultimately, is something really good. Here is a good chance for any fortunate rich man to get a fine picture of the beautiful scenery round the city, which is well worthy of such an artist.
We have received a fresh addition to our medical staff, in the person of Dr. Francis Davinson, son of Mr. Robert Davinson, now deceased, and formerly a produce barraca merchant and exporter. I hear he is a clever practitioner, and made his studies in Scotland, where he practised some years in one of the principal hospitals.

LATEST FROM THE BOCA.
(*Our Special Correspondent*)
The following is a veridical account of Monday's proceedings, as being an eye-witness, I can vouch for the statement annexed, and at the same time testify that as a foreigner I am not actuated by any party-feeling.
"On Monday afternoon about 3.30 p.m. several sailers, belonging to the Captain of the Port's, with their daggers and revolvers went about the streets and promoted quite a disturbance by crying out 'Viva Roca', 'Muere Tejedor' and other such epithets, greatly frightening the inhabitants.
The policemen shortly afterwards appeared to try and restore order, which they finally succeeded in doing, but not without some fighting. One of the Capitania men fired on the 'bobbies,' and afterwards took to the water and crossed to the opposide side, where he was afterwards taken, and escorted with eight or nine other 'promotores del escandalo' to the Police station.
Our much-esteemed Commissary, Sr. Flores, was on the field of action, and he went up to one of the insubordinates and, revolver in hand, commanded him to yield to superior authority. The man gave in. At this juncture an officer from the Captain of the Port's appeared and informed the Commissary that he must retire, as he had nothing to do in the matter, as they themselves ought to be judges: whereupon the Commissary told him he had better 'hook it,' which he did, and that quickly, going to head-quarters and bringing out on the Mole about a dozen men armed with Remingtons, who were really not too choice in their language. After remaining several minutes drawn up in line they afterwards went on their way rejoicing.
I cannot speak too highly of the great coolness shown by Sr. Flores, who is here a great favourite, for the masterly way in which he quelled the riot. I am also of opinion that Sr. Serna, our Captain of the Port, had nothing to do with the disturbance.
10.30 p.m. Monday. Armed manifestation in front of Capitania, in favor of Roca. Two men from Rail-

way station in front fired on a Police officer and policeman, wounding latter. Rumor says that Col. Garmendia, Chief of Police, arrived about 2 a.m. yesterday morning.

Everything quiet to-day.

Vessels passed out—Canadian brig Beaver and Norwegian brig Kong Kaare.

Passing out—Norwegian barque Proecis.

Luis Mazzini, for many years guard on Boca and Ensenada Railway, was drowned last night in Ensenada whilst bathing. He leaves a wife and two children.

FINE ESTANCIAS.

LA MERCED.

This fine estancia, situated in the Partido of Arrecifes, on the banks of Caguané Lake, belongs to Don Carlos Urioste. This camp offers exceptional advantages for cattle-raising and sheepfarming. Lands of this kind are so extraordinarily advantageous that they have been purchased lately at the fabulous price of $1,800,000 m|c., quite bare. La Merced comprises one square league of land, but Sr. Urioste possesses besides, as lessee, the Caguané and San Sebastian estancias, both comprising a square league of land respectively. These three estancias are well fenced, with six wires running through ñandubay posts at four yards distance from each other, at Sr. Urioste's own expense. The Caguané and La Merced camps are under 6,000 head of cattle, 35,000 sheep and 5,000 mares and horses. On the San Sebastian Estancia there are 18,000 sheep, 1300 cows and 2,000 mares. These three establishments possess each magnificent estancia houses, with all the out-offices, galpones, &c.

La Merced is the principal estancia in every respect; the estancia house is large and comfortable, surrounded by magnificent alleys of eucalyptus, paraisos, sauces &c. A fine garden around the house is a pleasant relief to the eye, contrasting greatly with the monotonous; all the plants and flowers of the tropics are tastefully studded in their beautiful beds by the masterly hand of a thorough gardener. Camelias, diosma, magnolias, and 'hoc genus omne' agreeably peep out of every nook. Only those who have galloped many hours through the desert Pampa can appreciate the rapture of a traveller as he winds his way through the mazes of a tastefully arranged garden.

It might be indiscreet to intrude remarks about the admirable arrangements of the house, its sumptuous furniture, so much so that one fancies to be transported on imagination's wings to Sevres or Neuilly and the banks of the Seine.

The peons have a large house to themselves, about a quarter of a mile away, only too happy to find employment on such a model and comfortable estancia.

The Rambouillet breed of sheep enjoy a marked preference to others of their family, and are lodged in two fine galpons, 'a l'abri' of all weather influences. The principal galpon is 17 yards high by 35 yards in length and 13 width: all masonry work and partly built of pine; six gateways give entrance to the animals. A division has has been made at the extreme end, with fine stalls for the thorough-bred horses; an 'entre sol' is a large deposit for forage.

The second galpon is smaller, eight yards high, 35 long and 10 yards wide. A particularity which escapes the eyes of none is noticed at the South end, and certainly commends itself in our free and republican country. In a 'niche' the statue of Liberty is placed, and forms a harbinger of prosperity to the place and a pleasurable omen to all employed on the establishment.

Immense tracts of clover are on the sides of the fine alleys of trees. An insight into this model estancia reveals at once its superior and excellent management from one extremity to another. For our next we will reserve a description of Mr Urioste's second establishment, known as the Caguanè. It is to be hoped that the 'Rural Magazine' will continue favouring its readers with a description of the estancias in this province.

EDITOR'S TABLE.

The Pacific Company's steamer Galicia brings dates from Europe to 3rd inst., showing what a splendid passage she has made. We give the latest news in another column. It contains one extraordinary item, viz, that the Czar of all the Russias intends to give Poland her independence!! This is the most stunning news we have heard for a long time; and if "Freedom shrieked when Kociusko fell," she can now regale herself with a hearty cheer for self and Czar, though the Autocrat is certainly a strange bedfellow for her. The Nihilists have at last made an impression on the Romanoff's nerves; though why he should commence with Poland, and apparently forget that Constitutional, like all other Charity, should begin at home, we are rather puzzled to imagine, unless it be to plant a most formidable thorn in the side of Germany and Austria, in which case it may prove a masterly stroke. Perhaps the whole thing is a 'bola.'

We regret to see that the news from Ireland is still bad: the distress is as severe as ever. The papers report a passage of arms between Her Grace of Marlborough and Mr Parnell M.P., although 'rolling waves divide them.' 'Oh! ever thus.'

The public read with immense satisfaction yesterday the War Office orders for the troops of the Line to leave the city at once, and for the men of all the regiments to be kept strictly confined to barracks till the hour of marching. This is hard on the poor privates, but is an eminently wise order, as the affair in Calle Florida on Sunday has slightly heated people again, and prevention is always better than cure. Two regiments left yesterday.

The *Paz* reports a general "wheel about, and turn about, and jump Jim Crow" feeling in political circles, and all kinds of rumours about new candidates for the Presidency, and serious splits in the opposing camps. Dr. Irigoyen's cause is evidently making way. Foreigners would be glad to see him elected. There is nothing fresh about General Roca's resignation. Hector Varela's series of letters to him puts the true state of the case.

The Rev. James Smith will preach at Temperley on Sunday next at 4½ p.m. at the residence of Mr James Mohr Bell. No evening service at the Scotch Church.

The *Nacional* reports that an ambush was laid for Colonel Donovan on Monday night, by eight disguised young men with revolvers, and he only escaped through being prevented accidentally from visiting his family that evening.

It was said yesterday that the Minister of Foreign Affairs has received by the mail a report of a highly important nature from the Argentine Representative in Chile. Many people think that it would not be amiss just now if the Chilian Question were to warm up again, as it would turn public attention from the 'burning question' at home, and probably force a settlement of it. Between such a cure and the disease it is Hobson's choice. Both questions will settle themselves.

So numerous are the expected foreign demands for space at the coming Exhibition, that the Committee have again extended the time for applying for same to the 31st of July next. When is the building to be commenced? 'Tempus fugit.'

The Progreso Club give their last masquerade ball of the season this evening.

The *Capital* of Rosario gives a terribly glum account of the wheat harvest in Santa Fe: The whole crop is now cut and threshed and turns out to be 50,000 fanegas!!—two months' consumption for B. Ayres. We hope there is some mistake. On the other hand, the maize crop is splendid.

The bakers' strike in Rosario continues, and Bagley's biscuits for breakfast, dinner, tea and supper is the order of the day. The poor Rosarians have not tasted buttered toast for a week.

The Committee of the Irish Relief Fund will meet to-day at two o'clock, at 79 Calle Maipu. Members are requested to attend punctually.

The report that the head National Schoolmaster at Formosa had drunk himself into a state of raging lunacy is contradicted by the paper which first published it; and we follow suit, not to do the gentleman an injustice, as he may be a strict teetotaller for all we know. Whoever started the rumour must be a prime scamp, as, not content with saying that the poor pedagogue was mad, he accused him of trying to murder his own wife and child.

Our colleague *La Patria* now presents its subscribers with a fortnightly copy of the 'Giornale Illustrato dei viaggi,' free, gratis, and for nothing. The last number contains most interesting cuts and details of Professor Nordenskiold's successful North-east Passage in the Vega. The Professor is a very handsome man, but in his fur mufflers and cap looks a kind of cross between Martin Luther and a colonel of Cossacks. He is, however, the great explorer of the day; no mistake about that.

The morning papers complain bitterly about the bad pavement in Calles Florida and Victoria. No wonder. These streets will never be worthy of their patrician residents till they are laid from end to end with Mr. Forrester's asphalte blocks, and the sooner it is done the better. Buenos Ayres can surely afford to pave decently its Regent Street and Piccadilly.

The list of robberies during the political fandango of last week is only now beginning to appear: it is stupendous, and most of the thieves of the city will be enabled to retire on moderate fortunes. Some of them met with a bitter disappintment at Mr. Emiliano Perez's office in Calle Victoria, where they smashed up safes, sofas and secretaires, cash-boxes and hat-boxes, cupboards, chairs and tables, but had finally to retire with five paper dollars worth of estampillas as the plunder of the night. This is the proper way to keep an office; never leave six-pence worth in it. Mr. Perez is safe from burglars for the rest of his natural life. We have followed more or less the same system with uninterrupted success, barring the disappearance of our aneroid barometer, the untimely loss of which has left a rankling void which no generous subscriber has yet thought proper to fill up.

The inhabitants of Mercedes are subscribing to present Governor Tejedor with an album. There is a lack of originality in the choice of the gift, but it will give the notables of the place an opportunity of writing themselves down, at the foot of some pretty phrases. However, a gift horse must not be looked in the mouth; it shows the great popularity Governor Tejedor has lately acquired.

Native industry is raising its head rapidly in this city. If consumers only knew how many of the things they buy with foreign labels are made here, they would choke with virtuous indignation, although, the truth be told, the home made articles are often better than the imported, as European 'tricks of trade' have not as yet been adopted by the pioneers of Argentine industry. Amongst new establishments which are doing well, or about starting, we hear of a pea-nut oil factory at the Riachuelo, a yerba factory in the old General Post Office in Calle Defensa, a wax match factory employing 40 men at Barracas, and doing a large business, Mr. Seeber's stearine candle factory in Calle Paraguay, a perfume factory in Calle Santa Fe, a new distillery at Barracas, and sundry others. In a few years we shall want nothing from Europe, while she will require more than ever from us. Wait till the mines and wines of the Interior are developed a little!

A new French dramatic company will be here about the Ides of March, to perform at the Variedades Theatre. Professor Rayneri and Madame Masson are the 'empresarios.'

Another stunning bit of theatrical news is that the 'divine Stagno' is not dead after all. He lately handed in at Rome 5000 francs sent from the River Plate to relieve the distress in Italy. Those who went into mourning for the 'bien-aimé' may now doff the garb of woe.

We have received the Report for the year 1879 of the German Hospital. The building is too small for all the patients and will have to be extended: many applicants have been refused on this account. The patients taken in during the year numbered 108, 93 of whom were cured, 8 died, and 12 still remain in the hospital. The committee pay a well-deserved tribute of praise to the unceasing efforts of Dr. Lausen. The expenses for 1880 will be greater than for 1879, as the buildings must be enlarged, and, no doubt, the German community will readily contribute, as usual, with charitable bazaars and concerts to their completion.

The accounts from the wine provinces are something astounding The single firm of Bargallo and Co of San Juan will make 10,000 hogsheads of wine this year. The manufacture of perry has been commenced at the Chacarita by Signor Comaltri, who has a large pear plantation out there.

There was a mild shock of earthquake in Mendoza on the 9th. Nobody hurt, but everybody seriously frightened.

The firmness in the gold market continues, and prices closed to-day 5 cents over yesterday's rate. The business done was small in comparison with other days, and the total sales only reached 561,141. Gold for the end of March closed hard at 10 cents over the opening rate, at 31, and there seems to be a greater disposition to buy gold on long time than for cash.

Cedulas gave way somewhat, opening at 85, and closing at 84½. Treasury notes seemed the firmest of all the stocks, and closed at 77⅝. National Bank shares opened at 60½ and closed at 60.

Mr August Durand, the popular French wool broker, in his review for the Gironde admits that never before was the Buenos Aires wool market as buoyant as at present. Every day good news from Europe has been received during the fortnight, and the sales were not only brisk in the Plazas, but also in the depositi, and this in spite of the fall in the price of gold, or the high exchange on Europe. Best wools 37 to 40 per cent are much looked for and scarce, finding ready sale at 125 to 135 m|c. Wools giving 34 to 35 per cent are also in very brisk demand at 115 to 125 m|c. Total wool arrivals to date 4,865,000 arr., total sales 4,150,000 arr. against 4,200,000 arr. arrivals and 3,500,000 arr. sales and 700,000 arr. stock same time last year. The stock to-day is 705,000 arrobes, and it will evidently soon move off.

The papers received per Galicia, 30th Jan., say that £156,000 were withdrawn on that day for South America. We suppose this gold comes to the Plate, being the only South American country whose rates of exchange ratify the import.

The Industrial Club is looking for more central offices within one or two squares of Plaza Victoria. We should imagine there is no great difficulty in finding them, the old offices of the Paris Exhibition Committee would well suit.

The sale of 150 yards of grapes on a vine on the Flores road for 2,000 m|c may interest the public; also picked peaches at 2 m|c per 100 in Flores, and 4 o peaches as they run from the hold or the bottom of the boat for 2 m|c selling price at the Boca. In another column will be found notes of the 'fandango' down there yesterday; the whole affair is sufficiently disgraceful.

Mr Escribano Tezanos, who stabbed Mr Hayne in Montevideo during Carnival, has been liberated, as Mr Hayne is out of danger.

On 29th inst. the distribution of Paysandu exhibition prizes takes place, and many parties will go up from here to attend the ceremony. The people in Paysandu subscribed 3,359 pats. towards the expense of this exhibition.

We note by the *Telegrafo Maritimo* that Lieut. Harvey Wilks, of the American gunboat Marion, has died at the Flores Island of yellow fever.

Gold at after-hours advanced to 30.90, at which price many sales, and the market closed firm.

The Tamar is expected in to-night; she brings £.51,000 gold.

The meeting at the Bolsa for the consideration of the Reglamento stands for 2nd March.

Exchange was done to-day at 50⅜, and on Paris at 5.29-30, and on Antwerp at 5.32. The banks take nothing under 50½ or 5.35.

The sale of the day was a splendid lot of Magdalena wool, belonging to a Basque named Larnari, at 140 m|c. per ar. This we believe was the highest sale ever known in this market for mestiza wool. Messrs Peyredieu & Bradley have the great credit of being the brokers who made the sale. The same brokers sold 300 ar. from Tres Arroyos at 112, and 300 ar. lambs' wool, Chascomus, Olivares at 110 m|c.

The news from Manchester, as appears by telegram, is very important; spite of the great advance there in cotton goods there is no reciprocal rise in price here.

The Cordillera's passengers are all in lighters, and we hear that the Government will not make the same exception in favor of any other steamers arriving. A Brazilian steamer that entered Montevideo the other day with sickness on board has been denied entry. There are now 40 lighters in quarantine, and one steamer minding them; if it comes to blow the steamer may find a difficulty. The Cordillera's passengers will be out of quarantine on 2nd March.

The 7th and 8th regiment of the line left town to-day by special train.

The Maskelyne, Captain Hairby, is expected on Saturday with dates 5th.

Freights very firm at 40s and 10 per cent. The Gironde leaves to-morrow not to-day, owing to her quarantine delays.

The sale of the Estancia and Saladero of Santa Helena, Entre Rios, by order of 'concurso' of Riestra, is reported, Mr. A. Gross broker—3½ leagues of camp with saladero buildings, moles &c., all for 28,000$ts. A German gentleman in Montevideo buyer—about the greatest bargain of the season, averaging 6000 fts. per league, within a few leagues of Parana and facing on the river.

Mr. Sagory, shipbroker of Montevideo, was welcomed on 'Change; he reports the export season over in Montevideo, except saladeros. It is rumoured that General Latorre left Montevideo yesterday, at the head of troops. Some invasion is talked of.

Mr Green has placed on the berth the Italbarque Angela P. to load for Havre.

The Phoenician has engaged full cargo for Havre at the following rates:—Wool 25 francs and 10 o|o, salted hides 40 fcs. and 10 o|o.

6,000 sovereigns sold to-day at 1½ premium.

Cedulas ruled weak at after-hours. Treasury Bonds firm at ⅜.

The pine cargo offering not yet sold, and nothing to report in coal.

Dr Plaza, Minister of Hacienda, ordered the Treasury to pay out to the troops of the line, recently brought to town, 3 months pay, which payment was made this morning; the troops, to judge by their appearance at Palermo, certainly want for nothing.

The proposal to run an omnibus between Azul and Carhue has been rejected by the Government, the move was considered too fast so far down South; ten years hence we shall have a railway running to Carhue.

Does anybody really know the whereabouts of the Island de Tova? To-day everyone in the Government House was talking about it; we hear the Government proposes to put up a sub delegacion down there; the new Custom House officer must be a veritable Robinson Crusoe: when the sea is high the Island is split in two; rather pleasant this; better far the diligence to Carhue than a Custom House on such an inhospitable outlandish spot.

Mr Calvo, who is well-known in commercial circles, lost his watch the other day whilst standing in a crowd in Calle Florida, looking at the Bomberos pass.

Four hundred peaches for two dollars is the present wholesale price of the article; at the cafes in town they charge their customers two dollars per peach; a broker wishes to know what is the per centage gain of the cafe men? At the markets in the morning strangers ought to go down and see the long files of bullock carts laden with peaches which are selling for a mere nothing. Whilst the peach seasons lasts we purpose bringing up from the Boca 400 peaches every morning for office use; subscribers please take note; we believe in no other part of the known world do editors give their subscribers peaches free, and yet there are some who think this is a poor country.

The Nat. Government, we understand, is in the market to buy the necessary ales to connect the Tucuman with the Central Arg. Railway; we suppose there will be no difficulty in getting them, although we note by the English papers that scarcely anything has risen so much in England as Railway iron.

Mr Jacobsen was the first in the city to-day to have London papers of 30th January; to his great attention we are indebted for the most recent files. The Galicia has brought the following commercial advices:—

"At the meeting of shareholders in the Buenos Aires National Tramways Company (Limited), on January 20th, a circular issued by Messrs Henry Kimber & Co., the solicitors of the Company, was the subject of discussion, and a vote of £1,294 therein mentioned for remuneration, which was taken by the liquidators at the meeting of August 5th last, at which only four shareholders were present, was abandoned, and a resolution passed, by a majority of one only (14 to 13), which permitted the liquidators to retain the £300 which they had drawn and paid to themselves on account of it, but no more. The resolution was carried by the aid of Mr Quilter and Mr Abbott and other friends from the Stock Exchange, of whom there were just fifteen members present

"From the Bank the efflux of £156,000 in gold was notified, viz, £150,000 in sovereigns for South America and £6,000 in bar gold for the Continent.

As many parties in this market hold Platino Brazileiro and West Brazilian Telegraph Shares, the following extract from Sir E W Watkin's speech at the meeting of shareholders of the West Brazilian Co. held in London on Jan. 8th may interest this market. Sir E Watkin said:—

"That cable communication was stopped and interrupted on numerous occasions during the past year; there was still a gross revenue of £92,000 and a net revenue of about £40,000 after charging £24,000 to renewal of cables. It was calculated that a cable should be worked from one year to another, at a cost of about 25 to 30 per cent; but the cable had been worked during the past year at a cost of 60 per cent. That was owing to their having no margin of capital and to very extensive renewals to the cable in different parts of their system. In order to bring about a sound state of things, in which the ordinary stockholder should receive his share of the net profits, it was necessary, first, to pay their debts; secondly, to complete their renewals; and thirdly, to have a reasonable margin of security. He proposed a scheme, the object being to make them their own mortgagees, but it no doubt involved paying a high rate of interest and somewhat onerous terms. He was happy, however, to say that a very large response had been made to that appeal—a response which justified one in believing that if his colleagues and himself had exerted themselves they could have obtained the whole of the money on the terms proposed. It had been thought, however, that, by co-operation with gentlemen who were now largely interested in the Company in various ways, the amount required could be raised at 6 per cent instead of 7 per cent, and that the 6 per cent bond should be redeemable at par instead of 10 premium. The receipts for the past year amounted to £92,724, a decrease of £148 as compared with the previous year. Under the agreement between the Company and the Brazilian Submarine Company, the latter, as report d last year, raised the question whether the Company was entitled to share in the revenue of the Brazilian Submarine Company during the continuance of interruptions of the traffic. They had agreed to compromise this question, and consented to deductions to the amount of £7,069. But for this loss, and others of smaller amount, owing to interruption of traffic, the revenue would have been £108,882. With respect to the contention of the Brazilian Submarine Co. that the question of the division by thirds of the revenues of the two Companies was referable to arbitration under the existing agreement; they had been strongly advised that such contention was untenable, and were resisting it. The expenditure this year on general account, excluding interest and rebate on debentures amounted to £27,615, showing a decrease of £3,682. The cost of maintenance and renewals in 1877-78 was £69,194, and in 1878-79 the cost was £72,104. They proposed to charge direct to revenue £24,270 under the head of maintenance, and to carry the balance of revenue (£19,926) to renewal account. They had already substituted at the cost of revenue sheathed cable for the faulty type for a distance of 790 miles, having thus renewed over one-fourth of the system. The receipts for the first ten weeks of the current quarter averaged £2,900 per week, being at the rate of £152,279 yearly, leaving, after payment to the Platino-Brazileira Co., £126,490."

Copy of Analysis by Professor Kyle.

National College, Buenos Ayres, November 29th 1879.

Messrs. M. Forrester & Co., Buenos Ayres.

Gentlemen—I haveat your request made a careful examination of he sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily mixible with water, from which it does not afterwards separate.

The proportion of active ingredients amounts to rather over 80 per cent it is free from Mineral Poisons and from Caustic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a Sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a domestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.

I am, Gentlemen, your obedient servant,

JOHN J. J. KYLE, Professor of Chemistry.

Extracts from Testimonials

From Mr. Alex. Stewart, Bailiff to H. D. Pochin, Esq. Rodnent Hall. Wales—

"The Sheep Dip is the best that I have ever used. I have not seen a single Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be appreciated."

En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendore, como por encanto, el vigor y la salud normal, dichas Pildoras remueven asimismo las dolencias que suelen afligir a las Mugeres al llegar estas a la edad critica.

Unguento Holloway

Este incomparable Balsamo sana los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo orijen no conviene mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguento Holloway, al que millares deben la salvacion tanto de sus Brazos y Piernas como de su existencia.

Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533, Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

☞ Se invitan a las personas que sean defraudadas por los vendedores que expenden 'Las Pildoras y el Ungüento de Holloway' falsificados para que se sirvan al comunicarme los pormenores, e inmediatamente hare formalizar procesos legales contra los Ofensores, y recompensare liberalmente a los Delatores por el trabaja que se tomen, comprometiendome a que no haya trascendencia de sus nombres.

Muy importante para el Publico.

Poseido de la mayor ansiedad, y con el debido respecto al Publico, apelo muy encarecidamente a toda clase de personas, para que se dignen prestarme su apoyo, dando a conocer como todas las malas y aun peligrosas falsificaciones de mis medicinas, hechas principalmente en Nueva York, de que tengan conocimiento.

Especuladores nada escrupulosos adquieren esta broza a un precio sumamente bajo, y la venden como si fuera mis genuinas pildoras y ungüento, logrando con este reprobado trafico una enorme ganancia.

Ninguno de los expresados medicamentos son genuinos, si no llevan en el rotulo de cada bote y caja la inscripcion siguiente: Holloway's Pills and Ointment, 533, Oxford Street, London, y el sello del Gobierno Britanico, con las palabras Holloway's Pills and Ointment, grabadas en el.

Las personas que tengan la bondad de informar de algun traficante que venda las enunciadas medicinas falsas, seran muy bien remuneradas, y nunca, ni en circumstancia alguna, se publicaran sus nombres.
